TIPOLOGIE DI FILTRO ABITACOLO

La salute ed il benessere del guidatore del veicolo dipende dalla qualità dell'aria che si respira nell'abitacolo.
Compito fondamentale di un filtro abitacolo è quello di garantirne la massima qualità, proteggendo in totalità l'operatore da polveri, pollini, gas, cattivi odori, batteri e virus.
I più recenti dati statistici confermano che l'assenza di un filtro abitacolo ad altissime prestazioni aggrava il livello di inquinamento all'interno dell'abitacolo, inoltre, con il filtro intasato, i vetri si appannano più facilmente, disturbando la visibilità e mettendo in pericolo la sicurezza.
